

Colorado

Key Figures

There are **354** solar companies operating in Colorado.³

34
Manufacturers

173
Installers/
Developers

147
Others

\$ The solar industry has invested **\$4,312.94 million** in Colorado, including **\$476.97 million** in 2020

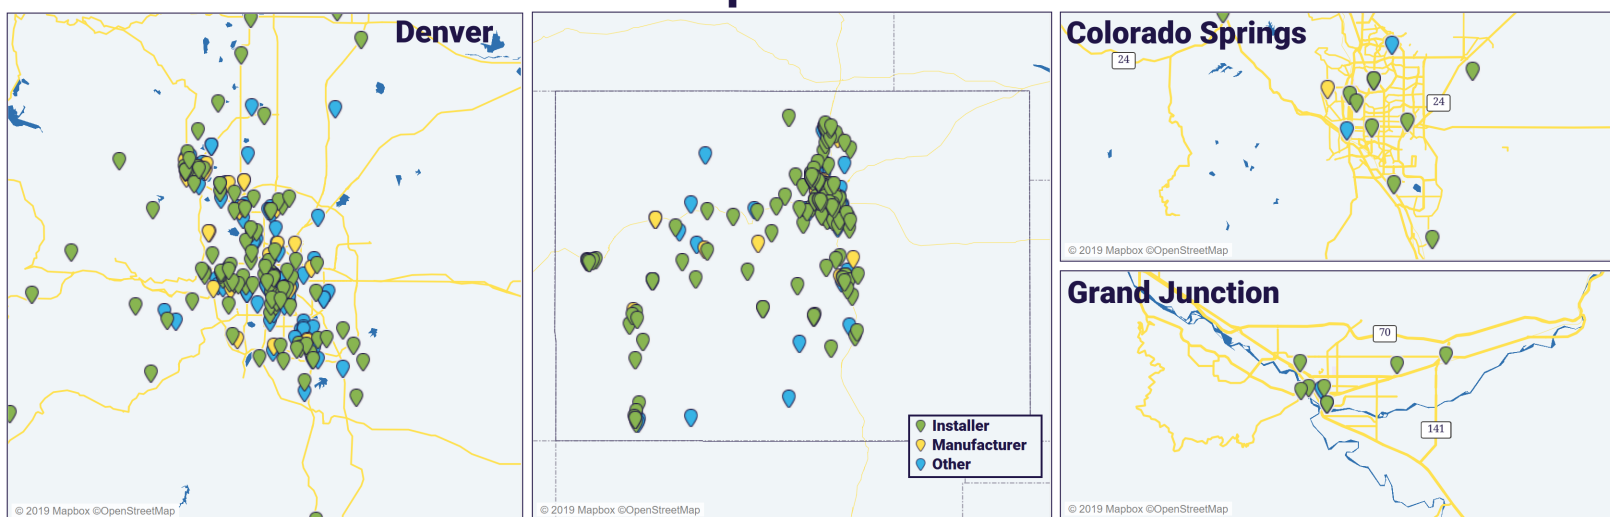

Colorado Annual Solar Installations

More information about solar energy in Colorado⁴

- Comanche Solar was developed by Community Energy. This photovoltaic project has the capacity to generate 120.0 MW of electricity -- enough to power over 23,852 Colorado homes.
- IKEA is one of the first major corporations to go solar in Colorado with its 1 MW IKEA project in Centennial.
- At 16 MW, SR Platte Solar Farm is among the largest solar installations in Colorado. Completed in 2017, this photovoltaic project has enough electric capacity to power more than 3,180 homes.

Solar Companies in Colorado

The Solar Energy Industries Association[®] (SEIA) is leading the transformation to a clean energy economy, creating the framework for solar to achieve 20% of U.S. electricity generation by 2030. SEIA works with its 1,000 member companies and other strategic partners to fight for policies that create jobs in every community and shape fair market rules that promote competition and the growth of reliable, low-cost solar power. Founded in 1974, SEIA is the national trade association for the solar and solar + storage industries, building a comprehensive vision for the Solar+ Decade through research, education and advocacy.
